

Pride of POLOKWANE

My wonderful trip to Limpopo

31 October 2014

a joyfull day my life, having under the sun with my friends. We where watching movies, swimming and playing games.

I and my friends really enjoyed the trip to Limpopo. Limpopo a city known for its culture and beauty of Africa. With my friends there it was more nice. Mrs Reynolds the principal was there. I really do think the teachers were also having fun.

It really was a vry nice trip to Limpopo. Meeting new people and making friends was hard but I got used to speaking to them.

We went to Limpopo to play netball and unfortunately we lost, but I'm thinking if we could go back there how fun would it be. The boys were playing soccer, some were playing chess, some girls danced the Indian and African dance and we had a competition of spellings against Mitchell house.

I realised that travelling to other provinces / places is fun than just living in one place throughout the year. Memories are playing netball, ~~seeing~~ watching Dolphin Talk's movies and leaving in a school with lots of fun. The food was really delicious. I ate junk and healthy food on that day. My sad memory is leaving the place but I really had fun though.

Thank you Mitchell House.
