Term 3

Dear Parent/Guardians

Spring Day Joy

Grand entries, clowns, magic and comedic rola-bola was the order of the day day! CityKidz celebrated the onset of Spring by having a special Civvies Circus Day. The event was a colourful pageant with all the circus goers dressing in full circus regalia.

Our mystery guest was Tricky Trevor the award-winning magician. He has vast experience with entertaining children and adapted his magic performance to suit our different age groups with three different, exciting, fun-filled shows. Our children loved the shows and there were squeals of delight as he entertained us with his tricks and jokes. It was heart-warming to see the looks of delight and fun on the children's faces. Fabulous treats such as, popcorn, corn dogs, ice lollies, slushes, cream donuts and other yummy items were on offer. It is always a special moment to add more happy moments to the lives of our children.

Live, Laugh and Learn Classroom Challenge 2022- Winners will be unveiled tomorrow!

- Does the reading corner have the "wow factor" and that the teacher and class have gone the extra mile?
- Does the reading corner **contain** a variety of books and reading material to motivate reading?
- Does the reading corner show a clever use of space, recycled materials and is set up in a themed, unique and creative manner ?
- Has the teacher involved the learners and parents to help source a considerable number of books and learning support material?
- Has the teacher involved the learners and parents to help enhance a themed-decorated reading corner?

Important Dates

What's happening over the next two weeks ?

Monday	Tuesday	Wednesday	Thursday	Friday
05/09	06/09	07/09	08/09	09/09
12/09	13/09	14/09	15/09	16/09
				Grade 1 Trip Action Park Grade 2 Trip to Emerald City Grade 3 Trip Pines Resort Grade 7 Career Dress-up

Modes of transport Grade 2 Magic

As we fly through Term 3, our Grade 2 pupils have been learning about one of the most exciting, interesting and relevant topics: "Transport". Learners were tasked with creating a 3D model of their favourite mode of transport and had to tell their fellow classmates why their chosen mode was their favourite.

Transport is something applicable to everyone, including our Grade 2's. Although we often hear that reasons for favouring specific types of transport over others include speed, style and popularity, this topic also introduced us to the importance of transport. Some learners like buses because it means that they can sit next to their friends in a row. Some like boats because they take us over vast stretches of water. Others like aeroplanes as they can take them to far away, foreign places to visit family and friends that they miss. No matter the reason, transport is important to us all.

Not only did we have interesting speeches, but we saw many different modes of transport which made use of clever and different materials effectively and in unique ways. We always encourage our learners to strive to achieve, and I think it's safe to say that our learners overachieved with this task! Keep on flying high Grade 2's!

You're invited! See you tomorrow

Our Bring and Braai is our Spring social gathering. You're invited to our "bring and braai," and this means the only thing the host is providing is a fire (You are welcome to bring our own mini braai in case the wait gets too long), so bring the rest!

There will be entertainment and music The Bring and Braai starts at 09h00. Please bring your picnic baskets, blankets and drinks. (No alcohol as it is a school.) Arriving with a bag or two of ice will definitely help to keep your drinks cold.

This is an unwinding session and a time to meet and greet other parents.

Spring Day Programme

- 07h30- Staff arrival
- 08h30-Judges arrival
- 08h45-Classroom judging- starting in Grade order. RR/R-7
- 09h00-Parents/guests and children arrival
- 09h45- Grade 7 item
- 10h15- Grade 6 item
- 10h45-Grade 5 item
- 11h15- Grade 4 item
- 11h30-JUDGES TEA-
- 11h45- Grade 2 item
- 12h15- Grade 3 item
- 12h45- Grade RR/R and 1 item
- 13h30- Winner's announced.

Grade 3—Astrophysicists in the making

The Solar System is a vast, mystical and intriguing topic; it creates an exciting environment in the classroom. This topic ignites interests and is mind blowing for both teachers and learners. The learners become inquisitive, even those who are said to be reserved, they peel off their cocoon to express their curiosity and awe.

Studying about planets, comets, asteroids, moon and all the astronomical objects that orbit the sun needs a strong imaginative ability to create mental experiences, that's transporting our learners to explore the expansive space, floating away in the galaxy feeling light and free, taking a spectacular view on Earth, the majestic Jupiter with the highest mountain, Olympus Moons, the petrifying Mercury; too cold and too hot to love! After all said and done, it was time to interpret what our learners learnt into creation and display their artistic skills. This was done through 3D project of the Solar System. Our young scientists showcased their skills through colourful, majestic and well thought-out models.

QUOTE FOR THE WEEK

Spelling Bee

I am grateful for the women who have gone before me who broke the glass ceiling so I could stand here today empowered, fulfilled, and ready to proudly raise the South African flag high everywhere I go and to shine the light of hope to all South Africans.
